HOW TO USE YOUR INNOTECH BACK SUPPORT

1. Place the support behind you in a position that feels comfortable.
2. Secure it to the seat with the use of the adjustable buckle and strap system.
3. To inflate, squeeze the bulb repeatedly until the desired firmness is obtained. To release air simply depress the push button valve.

ATTACHING OPTIONAL ONLINE SEATING

Step 1
When the enclosed velcro straps attach to the wooden frame of the Back Support, firmly press each velcro hook to the wooden frame and firmly pull down to lower the air chamber.

Step 2
Pull bottom strap up to raise air chamber.

Step 3
Locate velcro straps inside the seat pan or seat directly on the wooden frame of the Back Support, EmbraceAirPlus, EmbraceAirKing or EmbracePlus.

USING OUR PATENTED VERTICALLY ADJUSTABLE AIR SYSTEM

HOW TO ADJUST THE AIR SYSTEM
